## What do we advocate for?

We want change in Norfolk. We want to remove barriers so everyone is equal, regardless of age, race and Disability.

## What is Advocacy?

An advocate is a professional who can support you to have your voice heard. They can help you understand the process of what you are going through. They can help you feel more confident.

For example, they can help with housing, finance, child protection cases, accessibility issues, healthcare access and social care providers.

Advocacy is about recognising the needs of people and making sure that their voice is heard.
